

Anguilla

Never one to stand still, Disney continued to experiment. He translated *Snow White*, *Cinderella*, and many other classic fairy tales into full-length feature films. He set cartoons to the music of classical composers, and combined animation with live action.

Next, he turned his special magic to Nature. Disney's True Life Adventures gave us close-up views of animal life that few people had ever seen.

In the 1950's, Walt Disney easily made the transition to the popular new entertainment medium known as television. He produced enormously popular made-for-TV movies and hosted a weekly show that presented Disney films.

Television also introduced Disney's most beloved cartoon characters to a new

generation of children. Millions of youngsters tuned in each day to watch the fun on The Mickey Mouse Club.
