*Brookman notes "the \$2 is not easy to obtain well-centered as many of these stamps seem to be perforated close to the top and its color is such that it cancels rather badly. This combination makes fine used copies difficult to obtain. I consider it more difficult to obtain in choice used condition than any of the high values of the Columbian issue."*

*While the top value of the Trans-Mississippi Issue is occasionally found well-centered, it almost always has a heavy cancel. This sound example with a light cancel is a true condition rarity.*
